

**12th ANNUAL K-5
SCIENCE INVENTION CONVENTION**
Thursday March 23 6:30-8:00pm in the School Cafeteria

All Kindergarten through Fifth grade students are invited and encouraged to participate in this fun and easy experience. Children simply need to create an invention, conduct an experiment and share the results; or create a display relating to absolutely anything regarding the scientific world. Be creative and use your imagination to create something new and exciting!

We can't wait to see your results!

Be sure to check the internet and the library for ideas.

Who knows you might stumble upon an idea that will cause change! Try to invent something new or useful!

Children can work either alone, with siblings or collaborate with friends. The main purpose is for the children to have fun demonstrating to parents and fellow classmates a new invention or a scientific experiment!

THE RULES

- Students are to do the work for the project, while parents offer advice and support.
- Please limit the size of the project to 2' x 2' x 2' so as to fit on the tables.
- No outlets are available for projects needing electricity. Battery power is allowed.
- No volcanoes, please! They are problematic and extremely messy.
- Projects are to be dropped off at the **Avon School Cafeteria on Thu March 23rd between 8:00 - 8:30 am**. Please put them on the shelf in the cafeteria.
- Projects must remain displayed until the end of the convention on Thu March 23 at 8:00 pm. All projects must be taken home at the end of the evening.

Permission slips MUST be returned by MONDAY MARCH 13th to participate. Please return the form below to school with your child.

Please direct all questions regarding the Science Invention Convention to Nora Hyland at professormom66@gmail.com or 732-642-5199. Please do not call the school.
